OUR VISION is that within ten years, we will have established the Rossy Cancer Network as a world-class comprehensive cancer network with outcomes in cancer survival, mortality, and patient satisfaction as good or better than international comprehensive cancer centres.

As a patient receiving cancer treatment here at St. Mary's Hospital Center, you may need to receive care at several hospitals that are part of the Rossy Cancer Network.

### Consent form

In order to allow doctors, nurses and other members of your care team working in the Rossy Cancer Network to share information held in the different hospitals, we will ask you to give your consent, by signing a consent form. This information may be used to make important decisions about your care.

### Surveys

In order to constantly improve the services provided to the patient, we will ask you to answer surveys or participate in focus groups.

It's important that you answer our surveys and participate in our groups, so we know what to improve. You could receive a survey by mail at your home, or in some cases we will ask you directly here at the hospital. If you need help, please inform a nurse or the clerk at the front desk.

# Help us help others!

The mandate of the **Cancer Care Fund of St. Mary's Hospital Foundation** is to improve the quality of life of our patients by purchasing equipment and services that are not already paid by the hospital.
